

Year of the Horse

1930, 1942, 1954, 1966, 1978, 1990, 2002, 2014

The Chinese Lunar New Year, also known as the "Spring Festival," marks the beginning of spring, a time to shed the hardships of winter and prepare for a season of change and hope. 2014 is the "Year of the Wood Horse." The Horse is the seventh in the list of twelve zodiac animal designations in the Chinese calendar.

Calm, social, and influential, the Wood Horse is one of the most patient and creative members of the Horse sign. While other members of the Horse sign are burdened with indecisiveness, the Wood Horse is capable of picking a direction in life and working towards clear goals. The Wood Horse takes this same determination into their personal relationships, which they are heavily committed to. With gifts of understanding and a calm demeanor, the Wood Horse is very successful in cooperative social situations. The Wood Horse has a bit of adventurous side and is not afraid to commit fully to the unknown.
